

**Loi Corvetto, Ines. 1989.** Anomalie e paradigmi. Il suppletivismo nelle lingue romanze. Cagliari: Università di Cagliari, Annali della Facoltà di Magistero, Quaderno 34.

This book consists of a review of the literature, followed by discussions of suppletion in Romance languages first in nouns (including instances of suppletion in derivation such as gender formation), in adjectives (including degrees of comparison, formation of adjectives from nouns and formation of ordinal numerals), in pronouns (with a review of the difficult issue of whether personal pronouns are suppletive for number), and in verbs (person-number and tense-mood).
